

PRESS RELEASE:

ASUCplus ISSUES ITS 10,000th GUARANTEE

ASUCplus' innovative defects insurance guarantee has been giving peace of mind to householders and businesses alike for over nine years and this month the 10,000th guarantee was issued.

The guarantee ensures that any building that has been repaired by an ASUC member is covered for a period of 12-years and is transferable to new owners during that time. This is an undoubted bonus for prospective house purchasers, that definitely gives the edge over non-insured work.

Furthermore, having a DIG in place ensures that any work included in the guarantee is fully covered, even if the company should cease trading.

So, in uncertain times, it is not worth taking the risk of using an unregistered company who cannot offer the peace of mind that using an ASUCplus member brings. Not only can you be reassured the company is a specialist, professional and accredited company but the guarantee will remain in place in the unlikely event of there being a claim.

Full details of the main benefits of ASUCplus' Guarantee as well as information on members and the work they carry out can be seen at the website www.asuc.org.uk.

Notes to editors: ASUCplus is the only association representing specialist contractors in subsidence repair techniques and engineered foundation solutions. The latent defects insurance covers all the works carried out under contract at a property - not just the subsidence repair. Members of ASUCplus offer an extended range of foundation solutions, including new build, basements and other forms of subsidence repairs.
